Republican State Convention.

A REPUBLICAN STATE CONVENTION will be held at Madison, on Wednesday, the 2d of September next, at 12 M., for the purpose of nominating candidates for State Officers to be elected in November.

Arrival from Europe.

The *Arabia* brings some interesting items of news.

The bill removing the disabilities of the Jews has passed the British House of Commons.

The rebellion among the East India troops has became very serious.

The title of Prince Consort has been conferred on Prince Albert.

The Russians have again been defeated by the gallant Circassians.

Republican State Convention.

We publish this morning the call of our Republican State Committee for a Convention to meet at Madison at noon, on the 2d day of September next, for the purpose of nominating Candidates for the various State offices which are to be filled at the election next November. It is to be hoped that the primary meetings for the election of delegates to the proposed Convention, will be called in good season, and that men will be sent there whose object will be the maintainance and advancement of the great principles for which the Republican Party contend, and not the support, or success, of any particular men, or measures. The popular sentiment of Wisconsin is sound to the core, and the Republican nominees, if selected with sole reference to their character and qualifications, need no other assurance of victory. Let then the Convention see to it that our candidates are sound, upright and trustworthy men, and they will have opened an easy path to a brilliant triumph in November.

A Libel on Milwaukee.

A correspondent of the *News*, for whom that paper undertakes to vouch, furnishes a long communication in Tuesday morning's issue, from which we take the following extract:

> The procession was truly a credit to our city, till it began to turn from West Water street to the Camp Ground, where, to the *disgrace* of the city of Milwaukee, its "Plug Uglies," after cheering the Chicago and Milwaukee Light Guards, like incarnate devils, gave vent to hellish yells and groans on the approach of our Irish and German Companies, who to their credit, though much excited, manifested great moral courage under such provoking insults, by marching on in good order.

In the *News* of yesterday another correspondent, whom that paper rather discredits, pointedly contradicts the above paragraph and stigmatizes it as *"false, slanderous, and cowardly."*

We have been at great pains to enquire into the truth of the charge above quoted, and have not yet been able to find the first man, in the procession, or out of it, who heard, or saw any such disgraceful manifestation of hostile feelings towards our "Irish and German Companies," as the *News* correspondent tells of. On the contrary, the universal testimony is, that not the slightest symptom of the kind was to be observed during the day; but that all our Military, Fire and Civic Companies, as well as our citizens generally, without distinction of party, sect or race, met and mingled together, in the best possible spirits, and cordially and fraternally united in celebrating the birth-day of that Independence which is the common boon of all who claim America as their country and their home.

RITCHIE'S WORK ON WISCONSIN.—Mr. J. S. RITCHIE, whose forthcoming book on Wisconsin we recently noticed, writes to us that the book is rapidly passing through the press of CHAS DESILVER, 714 Chesnut street, Philadelphia. We copy further from Mr. R.'s letter:

"It will be a neatly bound little work, with a new map of the State, and one of Lake Superior, with several plates. The plan of the work is as follows:

Part I. Wisconsin and its resources.
Part II. Lake Superior.
Part III. Appendix—Constitution of Wisconsin, Post Offices, Newspapers, &c.

The first part contains, History of the State—Mineral Resources—lead—iron—copper—Lumber—Agriculture, &c.,—Population. Cities—Milwaukee has about fifteen pages, as it is the greatest. Madison, the Capital, receives a strong notice also. Then the others are mentioned. Then Counties, with a short description of each. Part I occupies 173 pages. Part II—Lake Superior, occupies about 60 or 70, I think. Part III about 30—in all about 275 or 300 pages. I think I have presented a strong argument for emigrants to move to the Empire State of the Northwest."

We think that such a work must prove of great benefit to our State, and wish the enterprising compiler success.

MORE REPORTED INDIAN MURDERS.—The Galena *Gazette* of Tuesday last, 7th instant, gives a report, brought by steamboat from St. Paul, that some Sioux Indians had made another attack upon the white inhabitants bordering on Spirit Lake, in Iowa, that more whites were killed, many taken captive, houses burned, &c. The white inhabitants and friendly Indians of the neighboring settlements had started in pursuit.

QUICK TIME.—The New York papers of Monday morning were received in Chicago, *via* the Michigan Central R. R. at half past 4 Tuesday afternoon and in this city early Wednesday mormorning. This was by Express.

Yestrday afternoon at 2½ o'clock we received the Albany Evening *Journal* of Monday afternoon, by mail—less than 48 hours. This is hurrying up pretty well.

THE ROND EAU SHIP CANAL.—The Toronto *Globe* comments sharply on the estimate of Messrs. PARKINSON & SMITH for the proposed Canal from Lake St. Clair to Lake Erie. It seems that the survey shows that, soon after the route leaves the St. Clair, an ascent commences, which finally reaches 118 feet above the lake level. This ascent the projectors do not propose to provide for by locks, but to cut sheer down to the level, and have only guard locks at the entrance. The cut would have to be twenty miles long, averaging 50 feet deep, and over 100 feet wide at the water surface.

THE FOURTH AT BOSTON—FATAL ACCIDENT.—The celebration of the Fourth, at Boston, was marred by a fatal accident. As the display of fireworks was progressing on the Common, in the evening, the mortar used for throwing shell rockets, burst, killing George F. Tewkesbury, formerly harbor-master, and a highly respected citizen: Asa L. Libby, cabinet maker; Patrick Cook, an employee of Hovey & Co., the pyrotechnists, and a boy named John McMahon.—Wiseman Marshall, the tragedian, and John W. Robinson, were badly injured, but not fatally.—This sad disaster terminated the pyrotechnic display entirely.

MURDER IN NESHKORO.—We are informed by Sheriff Lewis that a murder was committed in the town of Neshkoro, Marquette Co., by Philip Murphy, on the 4th inst., by shooting. The murdered man was William Murphy, brother of the murderer. We are not informed as to all of the particulars, but understand that jealousy was the cause of the murder. Murphy has fled. —[illegible]

The Late Wm. L. Marcy.

The New York *Tribune* of Monday last contains the following brief biographical notice of this able, honest and distinguished American statesman, whose sudden death at Ballston, some time in the forenoon of the Fourth of July, we have already chronicled:

> William L. Marcy is no more! He was found dead in his room at Ballston at noon Saturday.—He closed his seventieth year in December last. In his death the Democratic party loses one of its ablest leaders, and the Union a sagacious, prudent and incorruptible statesman. He is to be buried at Albany on Wednesday.
>
> William L. Marcy was born at Stourbridge, Worcester County, Massachusetts, December 12, 1786. His parents were in comfortable circumstances, and gave him a good education, which was completed at Brown University, whence he graduated with honor in 1808. He soon after settled in Troy as a lawyer, but devoted himself mainly to politics, which were then beginning to be of absorbing interest. Imbued with the political faith of Jefferson, he ardently supported the policy of which President Madison and Governor Tompkins were the leading exponents.—He ardently supported the Declaration of War against Great Britain, volunteered to serve in said war, and is said to have captured a British flag in some skirmish on our Northern frontier.—We believe, however, that his services in council were deemed more valuable than any he could render in the field.
>
> In 1816 he was appointed Recorder of the City of Troy, but, identifying himself with the "Bucktail" opposition to Gov. Clinton, he was removed in 1818. In 1821, the Bucktails acceded to power on the election of Gov. Yates, and made Marcy Adjutant General, from which post he was transferred to the more responsible one of Controller in 1823. He thereupon removed from Troy to Albany, which city he has ever since considered his home. He soon became a member of the famed "Albany Regency," an association of able and energetic politicians, by whom the politics of our State were mainly directed for a number of years. In 1829, he was appointed a Justice of our Supreme Court, and in 1831 transferred thence to the United States Senate, wherein he served with distinction until the close of 1832 when he was elected Governor over Francis Granger, at the same time Gen. Jackson was re-chosen to the Presidency. In 1834 his re-election for Governor was opposed by William H. Seward, but he was re-elected, as he had been first chosen, by about 12,000 majority. In 1836 he was opposed by Jesse Buel, whom he beat by nearly 30,000 majority. In 1838, he was supported for the fourth and last time, but was for a second time opposed by William H. Seward, who was now elected by over 10,000 majority, after a most animated contest. The election now turned on the Financial policy which had culminated in the Specie Circular, Sub-Treasury and introduction of Small Bills; and we believe there is no dispute as to the fact that Gov. Marcy, while he had heartily co-operated in the war on the U. S. Bank, would have chosen to stand aloof from these measures of quasi hostility to the State Banks. He has not since been a candidate for popular election.
>
> Gov. Marcy returned to office in 1845, on the accession of Polk, who appointed him Secretary of War. We believe it to be generally conceded that he discharged the duties of this important post with energy and marked ability, and that he signally contributed thereto to the general vigor and success of the war on Mexico. He retired of course with his superior on the accession of Gen. Taylor to the Presidency. He had supported Gen. Cass for President in 1848, without sundering his personal relations with the Van Burens, Cambreling, Dix, and other leaders of the Free-Soil Democracy, and he became an early and efficient negotiator for that re-union of the party which was so completely consummated in the contest of 1852.
>
> Gen. Pierce, on assuming the Presidency, offered him the portfolio of the State Department, which he accepted, though his tastes and pursuits had hitherto led him away from the field of Foreign Politics. Probably no greener Secretary of State ever entered upon the duties of that post, yet few or none ever filled it more effectively.—Several of his State Papers will long be treasured and admired, and he may be said to have reflected honor on the Administration of Gen Pierce—an achievement to which few men would have proved equal. That he was its good genius was very generally realized. That he never approved nor countenanced the violation of the Missouri Compact is beyond doubt; and this is all the foundation there ever was for the Southern report that he was about to join the "Black Republicans." Had he yielded to his natural impulses in 1854, resigned his seat in the Cabinet, and placed himself at the head of the opposition to Douglas's Nebraska policy, he might, perhaps, have died President of the United States. But Gov. M. was trained in that mistaken political school which holds it better to be wrong in the Democratic party than right out of it, and he lived and died in conformity with that error.
>
> In person, Gov. M. was tall and strongly built, though stooping in his gait, with a head and face which bore unmistakably the stamp of power. His manners were frank and unceremonious. We believe he leaves a widow and children.

THE FOURTH AT LYNDON—RESOLUTIONS.—The Fourth of July was celebrated with great spirit at Lyndon, Sheboygan County, and the following resolutions, expressive of the popular feeling, were adopted with entire unanimity and great enthusiasm:

Resolved, That we, as a people, although assembled to celebrate our National Independence, do heartily regret the existence of slavery in our Nation and are more than ever mortified that it receives the sanction of our National Executive; and that we look upon it as a blot upon our National Escutcheon.

Resolved, That we consider the act of Congress of 1850, known as the Fugitive Slave Law, as opposed to the letter and spirit of the Constitution and as infringing upon our rights as Free American citizens; and that we will oppose it morally and, if necessary, physically, to the extent of our ability.

Resolved, That we heartily sympathise with our friends in Kansas while trying to raise the Standard of Liberty in that territory, and that we will use every effort in our power to have Kansas admitted into the Union as a Free State.

Resolved, That we look upon the repeal of the Missouri Compromise as a breach of National faith and as removing what was supposed to be a final barrier to the aggressions of Slavery, and that we will use every effort in our power to have it restored.

Resolved, That we heartily sympathise with the slave and that we will never cease our efforts until every slave shall be set free and the blot wiped from our otherwise fair fame.

ELI WASTE, Chairman.

G. W. STONE, Secretary.

COMING WEST.—For the twenty-four hours ending on Monday last, *thirty-four hundred* emigrants arrived in this city over the Michigan Central Railroad. Of those the larger share were Swedes and Norwegians from Faderland via the St. Lawrence and Quebec, and thence through by rail. Among them was quite a large party of Scotch. The majority of the number went to Wisconsin over the Chicago, St. Paul & Fond du Lac Railroad, though there were numerous colonies for different points along the railroad lines in this State.—*Chicago Dem. Press*, 8th inst.

This is one sample of the way in which our State is filling up. The increase of our population from immigration, this year, will greatly exceed that of any previous season. It is no exaggeration to say that Wisconsin is "first favorite" among all the Western States.

SUGAR AND MOLASSES.—The stock of Sugar in New York, June 30th, was 151,445 packages, against 57,518 at the same time last year—of which 91,422 were hhds., against 50,291 June 30th, 1856. The stock of molasses, June 30th, 1857, was 34,441 hhds.; June 30th, 1856, only 7,210 hhds. The *Courier* says the estimated value of the sugar and molasses now held for sale in New York is about $16,000,000; and the market is paralyzed under the weight of the stock. Buyers are disposed to await developments. 140 hhds. Muscovado sold at 10 cents, and a sale at Philadelphia of 400 bxs. Havana, as heavy as No. 13, at 9 cents, in bond for export.

GROWTH OF MILWAUKEE.—The Waukesha *Republican*, in its last issue, thus refers to the rapid growth of our goodly city;

> Milwaukee is growing wonderfully. Evidences of future permanent greatness are every where manifest. Not in its fast young men, gassy agents, third rate lawyers, swelling dignitaries, who parade in public places, talk much of their deposits, and land speculations, but who are not able to pay the laundress; but evidences are found in her superb location, superior advantages, and because she is the great metropolis of the most promising State in the Union. Of course, there is a filthy scum upon the surface, blacker, if possible, than that which has so long darkened the political ocean of the State, but deep down there is a manly and generous heart, whose pulsations are beginning to be felt, and ere long we predict that she will be as a city set upon hill, whose light cannot be hid.
>
> She may be proud of her business men; like iron nerves, they bind together the social ship, and make her sufficient for any emergency.—There are undoubtedly quacks in business, as in every thing else, but the time has past for them to obtain a position of influence in Milwaukee.

The Burning of the Steamer Montreal—Loss of Life—Insurance, &c.

The Montreal *Gazette*, of the 4th states that *two hundred and twenty-two* bodies had been found up to that date, while fifty more were missing.

The immigrants were nearly all Scotch people who had just arrived by the ship *John McKenzie*. Many of them were in easy circumstances, and they drew out over $50,000 from the Quebec banks on their arrival there, before embarking on the Montreal to meet their sad fate.

The *Montreal* was insured as follows:

With the Provincial Company £1,125, Equitable £1,250, Ætna £2,500, Hartford £1,500, Home £1,250, British America £500—total £8,125.

The following incident is given by a correspondent of the *Gazette*:

AN OLD COUPLE AND THEIR HERO SON.

> Amongst the survivors who attracted most attention was a venerable man named Sinclair, 78 years of age, and somewhat infirm. He too was searching for a loved one lost. As he examined face after face he kept saying, "No, no, that's not him, that's not my lad," and his search proved fruitless for the time. He and his wife, also quite old, were both saved, but their son, a young man of 20, after making almost superhuman exertions—which God blessed—to save his parents, himself perished. 'Twas a noble death to die, and we hope that he has passed to a better than earthly reward. He seems to have been a universal favorite with those on board. All the passengers mourn his loss; all speak his praises.—His care of his aged parents, his watchfulness and solicitude for their comfort, seem to have been above all praise. "Had we lost none of our own family," said some of them, "we should have mourned for him almost as for a brother." I hope his body may be found and a monument raised above his ashes with the inscription—"*He died to save his parents.*" The lesson of young Sinclair's life and death should not be lost on the youth of our day.

THE OLD LINES SUPERSEDED.—The New York *Times* calls attention to the fact that the numerous screw propellers, owned abroad, and making quick passages, are encroaching largely on the business of the splendid sailing fleet of New York. The *Times* says:

> It is somewhat remarkable that while our old liners have been lying for weeks at our docks, wanting freight, these propellers continue to ply back and forth, generally with freights out and full steerage back. The increase in the number of these steamers is also a significant fact. During the six months of 1855, from the 1st of January to the 1st of July, there were only four of those arrived here with passengers, which were subject to be landed at Castle Garden, the whole number not exceeding a thousand persons; this year there were more than that during February and March alone; in April there were seven, in May eight and in June twelve, bringing nearly 5,000 passengers. All these vessels, with a single exception, were foreign bottoms.

THE LATE STEAMBOAT CATASTROPHE.—The Detroit *Free Press* has the following just remarks on the loss of the steamer *Montreal*:

> The late terrible calamity on the river St. Lawrence, by which upwards of three hundred human beings were precipitated to their final account, is another warning to the owners and navigators of steamboats to guard with increased vigilance against the liability to catastrophes of the sort. We do not remember of a conflagration of a steamboat for several years past that has not arisen from defects about the furnaces. *This catastrophe arose from defects about the furnaces.* These defects are common, we fear, with all steamers plying on American waters. Our lake craft, we have had too much reason to know, are not exempt from them. There is—remarks a cotemporary with reference to this point—altogether too much combustible material in the vicinity of the furnaces. It does not require a practiced or professional eye to see that where "wood-work" and fire are so near iron might be and must be substituted. Timber, constantly subjected to the intense heat of often overpowering fires above and below, soon becomes mere tinder, which awaits but collision with a chance spark to ignite and do its work of destruction. There are scores of steamboats carrying daily hundreds of passengers which run such terrible risks; but it is only when the public mind is startled and shocked by such "accidents" as the one on the St. Lawrence that we can hope to draw attention to the fact with a view to accomplishing a change so obviously necessary to the protection of the public life and property.

THE LATE ACCIDENT AND LOSS OF LIFE AT LEGHORN.—A correspondent of the *Morning Post*, writing from Florence on the 18th ult., says;

> "Leghorn has been the scene of a frightful accident. A mimic representation of the siege of Sebastopol, exhibited last Sunday in the summer theatre, the arena close by the aqueduct, will be remembered by many a sorrowing husband and bereaved father as long as any episode in the real welfare of the Crimea will be remembered by the companions of Raglan and Pelissier. On the afternoon of last Sunday about 4,000 persons were collected in the summer theatre to witness this representation, to be followed by the pranks of Stenterello, the Tuscan clown or Punch. The bombardment of Sebastopol was exhibited on the stage of the arena about eight o'clock. A number of small fire balloons, made of tow steeped in turpentine, and then ignited, were, it appears, directed against a pile of bastions and parapets of painted canvass—a mimic Malakoff. From these balloons constantly falling in the same spot, part of the scenery appears to have become very much saturated with the turpentine and at last caught fire.
>
> "The actors after an ineffectual attempt to extinguish the flames, saved themselves by leaping out of a window at the back of the stage, getting safely into the garden attached to the building. But the current of fresh air from the window thus left open, acting almost like a blow pipe on the flames, drove them in on the mass of the spectators, (they have scorched and blackened the first eight rows of benches in the pit;) and then followed the rush and crush of the maddened and panic-stricken thousands, those in the pit frantically clambering up into the gallery—those in the gallery dashing wives and children from the windows into the street, worst of all, the great mass of women and children trying to force way along the passage to the door, which they found shut, or more probably, as the door shut from the inside, had themselves closed and blocked up in the confusion of first terrible fright.—According to one report, the gate was closed hastily by the soldiers on guard, who, hearing the tumult, supposed that some disturbances had arisen in the theatre of a revolutionary character, which would be most easily quelled by keeping all the rioters shut up until the arrival of reinforcement; but it is much more probable that the wretched victims in their blind haste were the cause of their own destruction, and in that destruction many women and children were suffocated, or litterly trodden to death; and when at length the gates were forced open, the crowd from behind impelled, and projected a heap of corpses into the street.
>
> The deaths are known to exceed one hundred and fifty, though the Monitore Toscano, in a very ill-judged attempt to disguise the extent of the calamity, stated them to be only forty-three; and the mortality would have been even greater but for the exertions of several influential and energetic citizens, who hurried to the scene of the calamity, and by their personal efforts succeeded in rescuing many who in all likelihood would otherwise have perished. Among these persons I am happy to say, our consul (Mr. McBean) was conspicuous. Indeed he hazarded his own life in his generous attempt to succor others, for the ladder upon which he had mounted to the top of the building, broke under the weight of those whom he was helping to descend, and he was left perched on a window, exposed to the rush of those attempting to escape, and very nearly himself precipitated into the street. The deaths, I repeat, exceed one hundred and fifty. The wounded are probably double that number."

CURIOUS CAUSE FOR MUTINY.—The mutiny among the native troops of the British Indian regiments is said to have been caused by using pork and bullock fat instead of mutton suet, to grease the cartridges of their guns. The religious feeling of the natives is either Mahomedan or Hindoo. The first could not stand the pork abomination, and the last hold the bullock as sacred. The fanaticism of the troops being once roused it could not be easily quelled again. The latest report is that a new insurrection has broken out in the Bengal cavalry and that several officers of the regiment had been killed and a number wounded.

CAMP JUNEAU.—The members of the Light Guard and the Cadets are unanimous in the praises of the Milwaukee Light Guard and other companies for the hospitable manner in which they were entertained in our sister city. Judging from what we are told, Camp Juneau was a highly successful affair, and particularly creditable to the Milwaukee Light Guard, under whose auspices it was carried out.—*Chicago Tribune, of yesterday.*

OUR WHEAT SHIPMENTS.—The total amount of wheat shipped from this place for the month of June was 15,591 bushels. The number of bbls of flour was 798. Reduce flour to wheat and we have the total exportation from this place of 19,581 bushels. The trade for this season is about closed, though some nice parcels are still coming in.—*Whitewater Register.*

From the Atlas and Argus.

The Last Illness of Gov. Marcy.

GOV. MARCY was spending a few weeks at Ballston, previous to his departure with his family for Europe. On Friday he visited Albany, calling on Mr. Corning and other friends, and stopping at Troy, to see his daughter. Mrs. Marcy was visiting some friends in the West, previous to her departure; and other members of his family were absent with the like motive, and he was comparatively alone at the time of his decease. He was, however, in apparently excellent health, and buoyant spirits. It is only since his death, that we learn of his having been conscious, of late, of palpitation of the heart; but the symptoms had not alarmed him, nor occasioned uneasiness to his friends

The first announcement of his death came to our citizens by the passengers on the Saratoga train. A dispatch to this office confirmed the sad intelligence; and later in the day, the following letter brought us the painful details;

SANS SOUCI HOTEL,
BALLSTON SPA, July 4, 1857.

Editors Atlas and Argus:—

Hon. W. L. MARCY died at this place to-day, about 12½ o'clock P. M. He had been enjoying excellent health and spirits until last evening, when he felt somewhat fatigued. This morning he complained of a slight pain, or "stitch"—as he termed it—in his back. About 11 o'clock, A. M., accompanied by one of our citizens, he walked to the residence of Dr. L. Moore, which is about one quarter of a mile from the Hotel. He did not complain of serious indisposition while at the Doctor's residence, and not finding the physician in, on being asked if a carriage should be ordered, to take him to the Hotel, he refused to take one, and walked back. On arriving at the Hotel, he requested the office clerk to send the Doctor to his room; and the Doctor soon arriving, was sent up to the Governor's room, but, on rapping, received no answer. The Doctor returned to the Hotel office and informed the clerk, and it was supposed that the Governor had gone to visit some friends in the house. The Doctor, however, after waiting a few minutes, again went up to his room, opened the door, and found him lying on his couch with a book upon his breast, DEAD! It could not have been more than twenty minutes from the time he was in the Hotel office until he was so found by the physician. He died, probably, of disease of the heart. Not a muscle was distorted, nor any article of apparel or furniture in the room disturbed. He had pulled off his boots, and put on his slippers.

Death of Governor Marcy.

The Anniversary of American Independence has been again hallowed by an event peculiarly and impressively National. Another Patriot and Statesman has gone to his final rest on the Fourth day of July! Like Adams, Jefferson and Monroe, William L. Marcy, having faithfully and honorably performed his whole duty, and lived out his appointed time, calmly exchanged Worlds while millions of his countrymen were celebrating the Birth-Day of a Republic whose prosperity and fame it had been his privilege and mission to promote and exalt.

The habiliments of mourning in which this Journal is dressed but inadequately express our sense of the greatness of this bereavement. The country has lost, what it could ill afford to spare, an estimately good citizen and an eminently gifted statesman. We know with what enlightened judgment, with what comprehensive grasp, with what surpassing ability, and with what devoted patriotism, his public duties were all discharged. We know that during his forty years of official life, in stations of great trust and high responsibility, he was governed by the golden rule of right. We know that all times and under all circumstances, he was a man of inflexible integrity. Every office he received from the People was returned to them graced by his acceptance of it, and made honorable by the manner its duties had been discharged. He was an efficient Comptroller. He preserved the purity of the Ermine. His Senatorial Robe was without spot or blemish. He was an upright Chief Magistrate. He was an effective Secretary of War. And he was confessedly a wise, fearless and accomplished Secretary of State. The brilliant Diplomatic achievements of his last four years most appropriately close and crown a Life of stirring incident, high aspiration, great labor and great usefulness.

The Political history of Gov. Marcy is replete with interest and instruction. He was, in Albany and at Washington, the man on whose Pen his party relied in all cases of emergency.—When a strong article was needed for the "Argus" or the "Globe" or the "Union," there was a master mind that never failed to respond. In political warfare he has "tried conclusions" with De Witt Clinton, Chief Justice Spencer, Gen. Armstrong, Gen. Scott, and other distinguished writers. We should like to dwell upon these recollections but they do not belong to the occasion. Gov. Marcy can only be contemplated now in the National sense, and as a National loss.

Upon the family of Gov. Marcy, this blow, as it reaches them in different and distant parts of the world, will fall with crushing force. They were wholly unprepared for such a dispensation. To them the loss is irreparable; for they far better than any others, possessed knowledge of his manifold virtues, and had experience of the exceeding richness of his love; and they above others had been blessed with his society in circles to which he never failed to impart happiness by his enduring affection and habitual cheerfulness.—*Albany Evening Journal, July 6.*

DEATH OF MISS COUTTS—The lady who has followed Mario, the singer, for several years, and who was recently, in Italy, severely burned by her dress taking fire, has since died.

One of the foreign correspondents says:

> Though Miss *** suffered the most cruel tortures in consequence of this terrible casualty, yet even in the dreadful condition in which she was, she obstinately and courageously refused all medical assistance. She knew that she was lost, and that there were no hopes of her life, and she was, therefore, unwilling to admit of medical efforts and attention which could tend to no other result than that of prolonging her misery. A few days after the fatal event she died, pressing to her lips, as she breathed her last, a letter written on rose-colored paper.
>
> It was a letter from Mario, who wrote to her for once only. He had never written to her before. It was not a love letter, but one conceived in terms of the highest respect, expressing his gratitude to her for the marks of approbation and applause which she had publicly exhibited at his performance, and thanking her at the same time for the bouquet which, one evening, she had thrown towards him, on an occasion when he appeared in a new character.

HIGHWAY TO LA CROSSE DIRECT.—We are pleased to see that efforts are being made to have a road thoroughly worked to the Bad Ax county line, and from there to La Crosse. The road is to follow the river nearly all the distance which is only about fifty miles from this city to La Crosse. The advantages of this road to the traveling public can scarcely be over estimated. After the close of navigation there will be an immense travel from this point northward by land, besides the freight and produce of immense quantities to be carried from the M. & M. R. R. to the up river country.

A level and direct wagon road from Prairie du Chien to La Crosse will obviate the necessity of passengers in the winter stopping at Muscoda and making the toilsome journey over the hills via Viroqua. Let the citizens of this vicinity take early steps to secure this important route.—*Courier, Prairie du Chien.*

WOOL.—The trade in fleeces has opened, but not very briskly, all dealings in Wool this season are uncertain. The manufacturers are buying very cautiously, in view of the new tariff which is soon to go into operation, and which it is thought it will either increase, or diminish the price of the article, and consequently are not very eager.

There has been a very fair amount of wool brought into our market, but the most of it has been held back for higher prices, whether wisely or unwisely, nobody can tell. That is altogether a matter of speculation and luck. The experience of the past few years, ought to have taught Wisconsin farmers to sell any of their products, whenever they can get a fair price.

Our dealers are paying from 20 to 40 cents.

The clip is very good, but not quite equal to that of last year.—*Waukesha Republican.*

THE BONNET BUSINESS.—A manufacturer of bonnets has furnished us with the following statement as to the extent of the manufacturing business in this State, for the last six months:

Foxborough, cases,	6,000
Franklin, "	6,000
Wrentham, "	2,500
Medway, "	2,000
Framingham, "	2,500
Worcester, "	1,500
Upton, "	4,000
Monson, "	3,000
All others, "	1,000

This makes a total for the State of say 29,000 cases,—or a little short of two millions of bonnets.—*Boston Traveller.*

☞ In the pocket of William Downie, a blacksmith, from Aberdeen, who was lost by the burning of the "Montreal" was found a copy of the song:

"Oh why left I my hame,
Why did I cross the deep?
Oh why left I the land,
Where my forefathers sleep?
I sigh for Scotia's shore,
And I gaze across the sea;
But I canna get a blink
O' my ain countrie."

MONUMENT TO HENRY CLAY.—The corner-stone of the monument to Henry Clay was laid at Lexington, Ky., on the 4th, with imposing ceremonies.

ORIGIN OF THE TURNERS.—As early as the beginning of the present century, a German Professor named Jahn, connected with the University at Leipsic, conceived the idea of founding a school in which the elementary principles of a physiological education should be taught the youth who were connected with the University.

Their sedentary occupation had so enervated their systems as to excite the apprehensions of the Professor, who established a gymnasium, added to which was a department where enfeebled youths received medical treatment, or in other words where their diet was restricted to goats' milk, and they were obliged to practice the hydropathic system of living, in connection with the exercises from which latter system the name "Turners" had its derivation.

To this end the institution was maintained until subsequent to the sanguinary engagement fought by Napoleon, in the environs of Leipsic, in 1813, when the spirit of liberty which was then rife in the German states, crept into and consolidated this institution into a secret organization for the maintenance of republican principles.

Under the guise of its recognized purpose—bodily exercise and physical education—the society continued to flourish, fostering that sacred love of independence which so distinguishes the German people. The revolution of 1848 witnessed an example of their power, when, in the town of Baden, they performed a most signal part in the stirring events of that period.

About this time—1848—the German residents of the United States, imbued with the same indomitable hatred of despotism which drove them from their "Faderland," combined under one national organization called the "Bund." But in this institution, as in most all other national organizations, the question of slavery has been a source of dissension, resulting in a disunion of the "Bund."

The members of the society living in the southern states refused to subscribe to the *Turnzeitung*, an organ of the society published in Cincinnati, and the northern members, true to the principles of freedom, refused to fraternize with the German slaveholding advocates at the South. This state of affairs was greatly aggravated by the passage of the Nebraska bill, and about a year ago a dissolution of the National society took place.—There are now about 8,000 Germans connected with the institution in this country, only 1,000 of whom are residents of the southern states.

THE FIRST DAY OF JULY has arrived, and ERVING, BURDICK & CO., have found it impossible to complete their *Directory*, and they ask of an indulgent public a few days further extension of time.
We have been greatly delayed in issuing it by the unprecedented amount of press work required to be done in the *Sentinel* office for the last two months—all their Steam Presses having been greatly overtaxed with work requiring a large amount of night work to fill the orders of other customers, to whom a preference has always been given.
The Directory will contain nearly 50 per cent more names than any previous one, besides a large amount of valuable statistical and other matter, making it an invaluable book of reference for every business man in the City. ERVING, BURDICK & CO.

JUSTICE TO THE POLICE.—We published yesterday morning a communication, translated from the *Gradus*, signed by "CHARLES MAY, and many citizens of the 2d Ward," at the request of Mr. May, complaining bitterly of the conduct of policeman Graber, in particular, and all the police in general. In justice to the police, we would say that we have enquired about the matter, and are satisfied that all the charges in that communication are groundless and false, both from the testimony of all the parties in the Police Court, and of others. The particulars about the arrest of Chas. Wenzel, who Mr. May thinks was so brutally treated, are as follows:

Wenzel keeps a grocery in the 2d ward, and several boarders, and upon the night when he was arrested he was having a fisticuff battle on the street with one of his boarders, when policeman Gruber came along, and seeing them thus fighting upon the street, told them that he was a policeman, and endeavored to separate them. While doing this, which was his duty as a faithful officer, both parties pitched upon him, and as he was alone gave him a sound thrashing, of which he bears unmistakable external evidence, and it is greatly to the credit of the officer, though in so precarious a position, that he neither used his club nor revolver. Gruber then got out of the muss as quick as he could, and after procuring help, arrested both parties, who were justly fined by the police justice the next morning.

ORDINANCES, STREET COMMISSIONERS' ORDERS, &c.—The Common Council, besides raising the salary of the Chief Engineer to $800, has passed an important ordinance intended to secure greater efficiency in the management of the Fire Department.

The Chief, (or, in his absence, the Assistant,) Engineer is to have absolute control at fires, subject only to the Mayor's orders. He is to direct all repairs of the apparatus to be made immediately on the necessity being reported to him. Semi-annual inspections are directed. Numerous other matters are provided for, having been found necessary by experience. Copies of the ordinance should be posted in the various Engine Houses for the information of the members of the Department.

Sealed proposals are called for till the 11th for completing the grading on North Water, from Brady to Racine St.

Also, to the same time, for grading Pleasant St. from North Water to Marshall St.

NUISANCES.—The following tracts and lots are declared nuisances, and ordered filled:

The 5½ acres known as Messengers brickyard in the 9th ward.

The East part of lots 2, 3, & 4, in the E. ½ of S. E. ¼ of Section 19, in the 9d ward, and lots 1, 2, 5, & 6 in block 161.

Also lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12, block 109, Walker's Point.

Also lots 2, 3 and 4, block 104, Walker's Point.
" " 3, 4 and 5, " 19, " "

DROWNED.—Yesterday forenoon a man whose name could not be ascertained, tried to get from a scow which was lying in the river, below Walker's Point bridge, upon the propeller *Niagara*, which was passing by, and in the attempt fell into the river, and was drowned before he could be got out. He was a man about 35 years of age, with brown hair, and whiskers; had on a blue shirt, canvass pantaloons, plush cap, and new shoes, and was about 5½ feet high. He was a stranger in the city, and had never been seen here until Tuesday. It is reported that he had a family at Niagara Falls, and he was heard to say the day previous that he would like if he could get an opportunity to work his passage to Buffalo upon a propeller, in order to go home to his family. From his appearance it is supposed that he was Irish. His body was interred in the poor house burying ground.

SAD ACCIDENT—DROWNED.—Yesterday afternoon a son of Mr. EDWIN PALMER, of this city, a fine lad of 14 years of age, was drowned in the river, directly above the dam. He was in bathing with a number of other boys at the time, and had swam out near the middle of the river, when he sunk quite suddenly and was seen no more. It is supposed that he was taken with cramps, as he was an excellent swimmer, and otherwise could not have been drowned. When we learned the particulars, search was being made for the body, which had not been found up to nine o'clock last night. This is a hard blow to the affectionate parents, and they will have the condolence of numerous friends in their sad bereavement.

WALL PAPER—PAPER HANGING.—Everybody does not know—we did not know till lately—of the very large and choice stock of wall paper which is to be found at the store of FORD & FAIRBANKS, in this city. One whole floor, and part of another, are devoted to the business, and they do a large jobbing trade with the country in this line. Being modest people, they have not said so much about it as others.

Besides selling the paper, they employ thorough hands to put it upon the walls, and many of the best dwellings in the city contain specimens of their decorative skill.—Samples of their panel work are shown at the store, by an ingenious arrangement of numerous screens, folding into small space. Call and see them.

THE $10 SEWING MACHINES.—We were in error yesterday in stating that Mr. H. G. WILSON had purchased the right to make and sell this valuable family machine for this State. Mr. WILSON has purchased the right for *this city and county*, and intends to proceed at once with arrangements for the manufacture of the machines. His advertisement may be consulted.

Meantime, Messrs. BELL, VAGHAN and OWEN may be found at Mr. Hoffman's, on Wisconsin street, where they have for sale machines, and rights for many good counties still. Everybody is buying this labor and time saving machine.

IMPROVING THE STREETS IN THE FIFTH WARD—We are happy to notice a vast deal of improvements which are being made on many of the public thoroughfares in the Fifth ward. Reed street, which has long been the dread of all dray and teamster-dom, and a disgrace to the city, is now undergoing a thorough renovation, and will soon be paved in as good style, and in as passable a condition as East Water Street. Clinton street is also being paved, and in fact nearly all the mud holes in the ward are being filled up, and we will no doubt soon have as good and solid streets, in this, as any other part of the city.

FLOWERS AND SEEDS—AND WHERE TO GET THEM.—Our friend Hisler, the seedsman and florist, has built up a business for himself within two or three years which is a very great convenience to the public, while it is, we hope satisfactory in return to himself. It is well to know just where one can always go to get fresh seeds, and potted plants of all choice kinds, native or foreign, and people have found out that Hisler's is just the place.

A GOOD JOB BEGUN.—We are glad to see that the job of paving Reed St., or more properly West Water St., we suppose, from the Menonee Bridge to the 5th Ward line, is begun. We hope that the 5th Ward Aldermen intend to push along their part of the work immediately.

HORTICULTURAL SOCIETY'S EXHIBITION.—The Exhibition of the Milwaukee Horticultural Society comes off to-day, at the *Albany Hall*. The Hall will be open from 9 A. M. to 2 P. M. for the reception of articles, and opened to visitors at 3 P. M., and continue through the evening.

Musicians, (with stringed instruments only,) will be on hand in the evening, and there will be a promenade concert; and we have heard it hinted that there will be a *dance* after the exhibition closes. We anticipate a fine display of flowers and vegetables.

MILWAUKEE PEOPLE'S GARDEN.—This place of amusement has been fitted up in excellent style on Market Street, opposite the Market House, by Messrs. Pelosi & Rach, both distinguished German actors. It is a kind of an open air or summer Theatre, with the stage enclosed, and the sides of the building entirely open, which makes it decidedly more agreeable than a close hall or theatre these warm evenings. It is intended for dramatic entertainments and grand concerts. Admittance 10 cents. See notice in another column.

"THE FIRE FLY."—A young man in Watervliet, was detected in putting obstructions on the track of the Northern Railroad. When arrested he confessed, and said he only did it "to see the fire fly." It is rather dear sport, as he will probably learn.—*Exchange.*

If anybody in the vicinity of Milwaukee should feel desirous "to see the *fire fly*," it will not be necessary for him to place obstructions on the tracks of any of our railroads, for the genuine "FIRE FLY" can be seen in the job department of this office every day, printing 20,000 cards an hour!

MICHAEL MCGUIRE.—This young man, who had his back broken and was otherwise injured by the falling of a log in Capt. Jones' shipyard on Tuesday evening, died yesterday morning at his boarding house in the Fifth Ward. He had no relatives at this side of the Atlantic, but it is supposed that he had some in Queen's County, Ireland, where he came from. He was in the employment of Capt. Jones as a teamster.

☞ The attention of gentlemen wishing to obtain board is invited to the advertisement, headed, "Day Boarders," and those who find accommodations there will thank us for the hint.

SALE OF LOTS
IN VLIET'S ADDITION TO NINTH WARD.

ON the 15th day of July next we will offer for sale at the City Land Office, on Michigan street, upwards of a hundred lots in the neighborhood of Mr. Vliet's residence. To those who know the spot, it will be sufficient to say that the lots are for sale. To those who do not, and are seeking for lots on which either to build, or to speculate, we say look for yourselves, and judge whether any of the places now offering in and about the city, can compare with this. june26 OGDEN & WALL.

JOHN CARLISLE & CO.,
Proprietors of W. E. Child's & Co's
PATENT ELASTIC FIRE & WATER PROOF
CEMENT ROOFING,
Office, No 249 Main Street, 1 door North of Wisconsin

THE undersigned are now putting on this Celebrated Roofing material, in this city and vicinity, and are prepared to contract with those who may wish a cheap and durable roof; one that has not only been THOROUGHLY TESTED, but has rendered perfect satisfaction wherever it has been tried, and so confident are we of its superiority over all other roofs, we do not fear or hesitate to warrant it for years. It is perfectly elastic, flexible, fire and water proof. It will not crack, melt, or rot—it contracts and expands with the change of the atmosphere—in fact this

Roofing is Practically Imperishable.

It is applied by laying saturated felt paper, a body of itself, (separate and independent) on the roofing boards (or as it is commonly called sheathing) over the paper, the canvass; on this the cement is applied, which becomes thoroughly saturated, thereby being no possibility of the material cracking by the shrinkage of the timber underneath. It can be applied to old tin, iron, zinc, tar and gravel roofs, making no difference how steep or flat they may be.

We invite those who are interested in getting a roof that will stand the test of cold or hot weather without being the least affected, to call on us and satisfy themselves by examining our specimens and roofs that have been put on in this city. We ask the attention of Architects, Builders and all others, to the nature of this roof, and court thorough investigation, feeling assured that we are presenting to the public an article worthy of their attention.

We have put roofs on for the following gentlemen in this city who have given us the liberty of referring to them in regard to the good qualities of our Cement, viz:

Messrs. W. A. Conway & Co., Steam Planing Mill, Third Street, near Clybourn.

Messrs. Crampton & Oakley, " " Fowler street, between 4th and 5th.

Messrs. W. S. Babcock & Bro's, Master Builder, 3d st., between Sycamore and Clybourne.

Mr. F. A. Hallman, Master Builder, residence 8th st., between Spring and Wells.

Mr. John Marquis, Master Builder, corner Jefferson and Martin sts.

Mr. George Southwell, residence on Jefferson st., between Division and Knapp.

Mr. John P. Harris, contractor and builder.

And hundreds of others who have used this roofing in Chicago and Cincinnati, all of whom have unbounded confidence in its superiority, and many of whom have given us their written testimonials, and the liberty to refer to them if required.

We also refer to the following gentlemen as to our responsibility in performing any contract we may enter into with parties who may engage their roofing, viz:

E. D. Holton, Esq., President of Farmers' and Millers' Bank.

Messrs. Littell & Baker, Wholesale Grocers, No. 108 East Water St.

Messrs. Patton & Williams, " " " 15 Spring St.

John T. Martin, Esq., Banker, Madison, Wisconsin.

D. B. Shipley, " " "

For further reference, &c., see pamphlet issued by us.

We will furnish this Cement to those wishing it residing out of the city, with printed directions for applying it, which is simple and easily put on, as it is used cold.

Any information in regard to the above roofing will be cheerfully given by us, and orders sent to the firm by those who are at a distance, through the Post Office, Box 945, will be promptly attended to. Application may be made to us for the purchase of rights in Counties or towns in this State on which to use the above roofing.

WEST'S

PATENT GALVANIC CEMENT FOR ROOFING!

IT MAKES a better Roof than Tin, at less than half the cost. Those who know it best speak of it in the following terms:

We were present at the disastrous fire in Salina, last fall, and took particular notice of the effect of the fire on "West's Galvanic Cement" Roofs. The composition was fire proof. Burning boards and cinders fell on the roofs, and did no harm. The inside of the buildings were burned out, and the roof boards almost entirely consumed, before any fire would break through the roofs—it will resist fire longer than tin, and there is no other kind of roofs that are so entirely proof against water.

Syracuse, March, 1857.

Alexander Duff,	A. Grippen,
G. J. Johonnet,	Elmer P. Morse,
P. Ford,	James Johonnet.

The superior claims which this Elastic Composition,

Fire and Water Proof Roofing,

Has over the various ordinary Cements and Compositions which have been offered to the public, consists in the FACT that it has proved for over *fifteen years worthy the confidence* of those who have given it a trial, and to this FACT we attribute the general favor and universal patronage it is obtaining in this City and State.

To all who are erecting new buildings, that would if possible, at a reasonable price, avoid the perplexity and annoyance of *defective and leaky roofs*, and secure such as will be a *perfect protection from the elements*, we submit the following facts and conclusions:

To the Proprietors of West's Patent Galvanic Roofing:

GENTLEMEN:—We are some of the numerous property holders of this city, who have availed ourselves of the advantages which your Elastic Composition Roofing Material affords, and we most cheerfully and unhesitatingly say, that our experience and observations thus far, fully fully sustain and corroborate the *proof* you have heretofore presented to the public, through the Milwaukee press, of the *superior claims of your roofing material*:

Within the past year, I have paid THREE HUNDRED AND SEVENTY-THREE DOLLARS for repairing leaky and defective roofs. The composition used for such improvements is known as *West's Galvanic Cement* for roofing. I am so well satisfied of the *value received* for the expenditure, and of the superiority of this article for roofing purposes, over any other article now in use, that I have engaged to have it applied to the building which I am having erected on the corner of East Water and Michigan streets. ALEXANDER MITCHELL.

During the winter of 1856 and 1857, I had West's Galvanic Cement Roofing applied to the Excelsior Block, erected on the corner where the United States Hotel was burned. This roofing, although yet in an unfinished condition, having only about one-half the composition of a complete roof, and that in the most unfavorable season, is in all respects answering the purpose of a complete roof. These facts, together with many others within my knowledge, are such that I fully concur in the opinion expressed by men who have had years of experience with this roofing material, that it is the most perfect and reliable article for covering buildings, that has been offered to the public. J. B. CROSS,
Mayor of the City of Milwaukee.

I have had the composition above referred to applied to the Newhall House, during the past winter, and my experience, knowledge and opinion correspond with and fully corroborate the above facts and conclusions.
DANIEL NEWHALL.

From our knowledge of the composition for covering buildings, known as West's Galvanic Cement for roofing, which has been very extensively used in this city the past year with perfect satisfaction to those who have adopted it, we most cheerfully recommend it as superior to any other article of the kind now in use, and worthy of the fullest confidence of the public.

Arrival of the Arabia.

New York, July 7.

The steamship Arabia from Liverpool, June 27th, arrived this evening, at 7 o'clock, bringing nearly 100 passengers. She passed on the 28th, the steamer America from Boston. The steamer Indiana hence, arrived at Southampton, June 22.

In the British House of Commons, the Jews oath bill had been passed by a large majority.

Queen Victoria, attended by a brilliant staff, had personally distributed the Victoria Cross or order of valor, in Hyde Park. The attendance was immense.

The French elections have all gone one way, the opposition securing only about a half a dozen members.

Latest advices from India show that the mutiny of the native troops had assumed a very serious shape. They had taken possession of Delhi, massacreing the Europeans.

The English Cabinet had conferred the title of Prince Consort on Prince Albert, thereby making him legally a member of the royal family, but without giving him any additional authority.

The reception of the name of Mr. Dallas at Oxford University, for a degree, is said to have been rather equivocal, as if the body doubted the friendly disposition of President Buchanan and disliked what they construed into approval of a pro-slavery administration.

Accounts of the grain and potatoe crops continue to be highly encouraging.

FRANCE.—The ministerial Journals are highly elated at the result of the elections. New elections are ordered in cases where an absolute majority for either candidate was obtained. General Cavaignac stood in this predicament in Paris, while in the provincial district in which he was a candidate—he was defeated by a large majority. The bank of France has reduced the rates of commercial bills to 5½ per cent., but the interest on advances remains at 6.

The Paris correspondent of the *Times* mentions a rumor of a serious plot connected with the recent election movement. Four Italians, on whom papers and fire arms were found, had been arrested.

Advices from Madrid state that the Spanish and Mexican ministers had a long conference, without improving the state of the Mexican question. In fact, the situation of affairs between the two governments is considered critical. The English and French ambassadors were striving to effect a reconciliation.

The report that Gen. Concha had sent vessels to the coast of Cuba, is fully confirmed. Lord Howden had sent to the Spanish government another very strong note in reference to the Cuba slave trade. Later advices state that the Mexican Minister positively intends leaving Madrid in the course of a week if he was not previously recognized in his official capacity.

A despatch from Trieste announces another victory of the Circassians over the Russians, in which the latter lost one thousand.

Washington, July 7.

The administration fully sustains the cause of Gov. Walker in advising the submission of the constitution to the vote of the people, and defends him from southern attacks. The executive dept't. will be closed to-morrow as a mark of respect to the late Hon. W. L. Marcy. The President and all members of the Cabinet, with the exception of Gen. Cass, attended the annual commencement of Georgetown College to-day. The President was occupied for several hours in distributing the premiums diplomas. Should the public business permit it, the President will leave for Bedford the last of this or early next week.

Albany, July 8.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. E. DE CRETY, from PARIS, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 9 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 8, for conversation.

Mr. De Crety will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of french correspondence to all the principal cities of France and will procure all Price Currents that they may want.

As no odor proceeds from the preparation, the glove can be worn *immediately* after it is cleaned. With a piece of flannel, apply a small portion of the preparation very lightly, and the dirt will immediately disappear. It is the article used by the Kid Glove Manufacturers of France to impart that purity of finish and softness for which their gloves are so justly celebrated. It cleans kid slippers and white and colored kid gloves elegantly. It is also an excellent article for the toilet, and for beautifying the complexion removing tan, pimples, &c., far exceeds in excellence any of the thousand and one preparations usually sold for that purpose. One trial, at the trifling expense of 25 cents, will convince any one that the article is all that it is claimed to be. Try a bottle of it for 25 cents, and you will never wish to be without it.—It can be obtained of all Druggists and Dealers in Fancy Goods in Milwaukee, and at wholesale of the sole proprietors CLARK & Co., 335 BROADWAY, NEW YORK. IMPROVED
SEAMLESS WHALEBONE
SKIRTS.
WE take pleasure in again introducing our improved Seamless Skirt, as being the most acceptable article in market; we are aware that many new styles called improvements are before the public, such as India Rubber, Gutta Percha, Rattan, &c., all of which we have if called for—but cannot recommend them, as we have experimented with and tested them all—(most of them two years since) submitting them to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, inferior to our properly prepared Whalebone which has been in use the past years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our own large retail trade, amounting to many dozens per day. Therefore we confidently recommend our Skirts to be the least objectionable of anything in use; possessing many advantages *found in no other Skirt*, the most important of which is *our series of elastic cords* at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll nor curl, is not affected by heat or cold and can be washed without injury. These cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, pronounce a Skirt, and the only skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a Ladies' dress; light, pliable, easily adjusted and in every respect a complete article. The public are cautioned against all imitations or other goods called Seamless Skirts. Every genuine article is stamped E. & J. Holmes' Improved Seamless Whalebone Skirt, and are for sale at 99 Market street, Philadelphia, and in the principal Jobbing Houses in New York and Boston. E. & J. HOLMES & CO.
